FOR THE FACE

Dermalogica is the skin care system researched and developed by The International Dermal Institute. Known worldwide as the "professionals' choice," Dermalogica is founded on the belief that good skin care is not about pampering or luxury... any more than brushing your teeth or washing your hair is! Using only the finest ingredients available, all products are non – comedogenic and contain no occlusive mineral oil or lanolin, no irritating artificial colours or fragrance, and no drying S.D. Alcohol.

Face Therapy Treatment

This treatment is truly revolutionary because it customises your facial at every step, based on a 'Face Mapping' skin analysis by Dermalogica. Your treatment will be unique with every visit as your skin changes through environmental and hormonal changes. A home care regime will be prescribed for you so you can continue to benefit from your facial treatment every day.
